[Alligators V Crocodiles: How To Tell The Reptiles Apart ?](#)

Crocodiles have longer, pointier snouts; alligators have shorter, more rounded snouts. When an alligator has its mouth shut, you won't see any of its teeth. In contrast, when a crocodile has its mouth shut, its back teeth stick up over the top lip, showing off a toothy grin. Because they are broader, alligator snouts are stronger than crocodile snouts, which
